Queensland Police Gazette.

Containing Information received in cases of Felony, and of Misdemeanor, and against Receivers of Stolen Property, reputed Thieves, and Offenders escaped from custody, with the time, place, and circumstances of the Offences, and description of those who are not known; the appearance, dress, and other marks of identity, with every particular which may lead to their apprehension; and a Description, as accurate as possible, of Property that has been Stolen, Horses, &c.

PUBLISHED BY AUTHORITY.

VOL. XXXI.]

SATURDAY, 6TH JANUARY, 1894.

[No. 1.

NOTICES.

1. *Police Gazette*.—All communications for the *Gazette* must be addressed to the Commissioner of Police, Brisbane; except *Reports of Offences committed*, which must be prepared on criminal offence forms, signed by the officer in charge of the district or station, and forwarded to the Detective Office with the least possible delay, with duplicate warrant, if unexecuted.

2. *Stray Cattle*.—No advertisement of lost horses or cattle will be published in this *Gazette* unless they be Government property; but notices of horses or cattle stolen will be inserted gratuitously.

3. *Property Described*.—The brands of horses and cattle should be imitated as nearly as possible, and their exact positions given. In describing watches, it should be stated whether they are open-faced, hunting, double-cased, or half-hunting; the term "double-cased" being reserved for those watches whose outer case is removed in order to wind; "half-hunting" implying a very small glass in the metal cover of dial.

4. *Warrants*.—A duplicate of every warrant issued, and intended for publication in this *Gazette*, must accompany the criminal form forwarded to the Detective Office; and, when procurable, a photograph of the offender should be enclosed.

5. *Previous References*.—In cases already gazetted, officers in charge, or others concerned, will be good enough to quote the date and page of the *Police Gazette* in which the previous notice has appeared, and in reporting arrests, to state by whom effected.

6. *Members of the Police Force* are directed to peruse this *Gazette* carefully, and to notify to the Commissioner any information in reference to anything therein inserted of which they may be possessed.

7. No notice of reward offered by any private party or parties will for the future be inserted in the *Police Gazette*, unless there be forwarded to the Commissioner of Police the guarantee of some responsible person that the reward shall be payable according to law, on the arrest or conviction of the offender, and not merely for the recovery of property. If such notice be communicated by telegraph, the addition of the words "guarantee received" will be sufficient; in such cases, however, the guarantee must be forwarded without delay.

Getting around this CD

NAVIGATING ARCHIVE CD BOOKS CDs

All Archive CD Books products can be navigated easily using the handy bookmarks on each CD. The table of contents in most original books, and the original book index where it exists, can provide additional ways of finding the information required.

SEARCHING TEXT ON ARCHIVE CD BOOKS AUSTRALIA CDs

Optical Character Recognition (OCR) technology has been developing over the years as a useful mechanism to convert images (as Archive CD Books pages are) into text which can be searched.

The quality of the OCR can still vary, and hence the searchability can vary. Around 95% or 99% of the words in books with good type are searchable—or even higher with very good type.

*OCR is now a wonderful searching aid in many instances
but there is still no substitute for reading the book!*

DIFFERENT VERSIONS OF ADOBE ACROBAT READER

Adobe Acrobat Reader 4 or later should be used. Adobe Reader 6 (as it is now named) in fact has considerably better searching options and is recommended.

- **Acrobat Reader v4** has both a "Find" and a "Search" tool. Those tools are two **totally** different things. Our CDs (that are searchable) work with the **FIND** tool
- **Acrobat Reader v5** has only a "Find" tool (not a "search" tool). Our CDs (that are searchable) work with the **FIND** tool.
- **Adobe Reader v6** has only a "Search" tool (not a tool labelled "Find")
HOWEVER — what is called "Search" is the same as the tool that used to be called "Find" Our CDs (that are searchable) work with the **SEARCH** tool

TIPS FOR SEARCHING AND GETTING MORE FROM THE CD BOOKS

- update to Adobe Reader 6 for more versatile searching options, including the ability to bring up a list of all instances of the word you are searching for — across multiple files on a single CD in a single search request.
- enter the MINIMUM number of characters needed to bring up the search results required.
- use Adobe Reader 6 to do some trial searches to try to identify the characters that may be misread. These can show up in the extra text in the search results list (Adobe 6 only). A few minutes trial will help you to avoid using characters that are more prone to being misread, e.g. try entering "rederi" if you want "Frederick", but find that the letters "F" "c" and "k" are sometimes misread.
- use the "Match whole word" option to eliminate unnecessary items in your results list, e.g. to eliminate all the blacksmiths and tinsmiths etc when you only want the name Smith
- use the "Match case" option when you want to eliminate all the occupations "smith" if you only want the name "Smith"
- Don't just search for names. Search the book for other names, places and subjects of interest:
 - look for others of the same name
 - look for others who lived in the same place or street
 - who was the postmaster or police officer in the town?
 - how often and at what time did the coach arrive in town?
 - what churches were there and what time were services held?
 - what other activities were there in the community?
 - look for others who had the same occupation or other interests
- All of this and more may be available in a seemingly mundane book such as a directory. You could learn or write much of the background of life at the time, even if your ancestor is not listed there.

ADOBE ACROBAT SEARCHING IS A WONDERFUL FIRST FINDING AID.
BUT DO NOT RELY ON IT TO PICK UP ALL THE INFORMATION YOU WANT
